

ABDUL AZIM RAJMOHAMED

Mumbai, India

📞 9833772429 ✉ abdulazim0402@gmail.com [in](#) [Linkedin](#) [🌐](#) [Portfolio](#)

Summary

Data Engineer with over 2 years of experience in developing and refining data pipelines using **Azure Data Services, Apache Spark, and Databricks**. This role emphasises building **analytics products, data warehouses**, optimizing **ETL processes**, and integrating complex data sources to support business intelligence and decision-making

Experience

Data Engineer

Oct 2024 – Present

GEP

Mumbai, India

- Developed and maintained scalable ETL pipelines using Apache Spark (Scala and Python) on Databricks, supporting both data warehousing and AI/ML workloads.
- Engineered robust data workflows ingesting data from multiple sources into a centralised data lakehouse, reducing data latency by 40%.
- Optimised Spark job performance through partitioning strategies, caching, and broadcast joins, resulting in a 50% improvement in processing efficiency.

Data Engineer

Jun 2022 – Oct 2024

Addend Analytics

Mumbai, India

- Led a team of 3 and collaborated with product managers, solution architects, business stakeholders, and analysts to ensure timely project delivery in **data engineering** and **data analytics**.
- Demonstrated expertise in **Azure Big Data** services like **Data Factory, Databricks**, and **Data Lake** resulting in a 40% reduction in processing time.
- Engineered high-efficiency **ETL pipelines** with **ADF** and **PySpark**, processing data daily into **Azure Data Lake**, cutting transformation time by 45%.
- Pioneered excellence in managing an **Azure SQL data warehouse** by creating and maintaining over 100+ SQL Objects, and enhancing query performance by 30% through **SQL optimizations**.
- Streamlined **data quality checks** and **validation processes** to ensure the accuracy of mapped data, reducing errors by 15% and increasing overall system efficiency.
- Boosted code quality and reliability by implementing **automated CI/CD pipelines in Azure DevOps**, leading to a reduction of 40% in deployment time.

Data Engineer Intern

Apr 2021 - Nov 2021

Anyarc (AnyLocus)

Mumbai, India

- Collaborated with cross-functional teams to analyse diverse datasets encompassing banking, driving license, life insurance, and health insurance, using **Python, SQL**, resulting in a 20% increase in client satisfaction and decision-making.
- Optimised an Ingestion Platform for loading over 5GB of historical data processing using **Python, Azure Function, Logic Apps, Azure Cognitive Service** and deployed it in **Azure App Service**.

Education

Fr. Conceicao Rodrigues Institute of Technology

Aug. 2018 – Jun 2022

Bachelor of Engineering in Information Technology

8.70/10 CGPA

Achievements

DP203 Microsoft Certified: Azure Data Engineer Associate

Technical Skills

Languages: Python, SQL, C++, Javascript, HTML/CSS

Databases: MySQL, MSSQL, Cosmos DB, NoSQL, Azure SQL Database

Tools: Azure Data Factory, Azure Synapse Analytics, Azure Data Lake, Azure Databricks, Azure Function, Logic Apps, Azure KeyVault, SSMS, SSIS, Azure DevOps, Git, Github

Frameworks: PySpark, Spark, Hive, Docker, PowerBI, DevOps, Seaborn, Matplotlib, NumPy, Pandas

Core Skills: ETL/ELT processes, Data Pipelines, Data Warehousing, Data Modelling
